

# GeoGebra - Becoming a Proficient, Inspired Practitioner

Presenter & Facilitator: Richard Andrew

**Attn: Mathematics Leaders & Teachers**

**This could be you!**

You are feeling empowered because you are much more able to bring concepts alive for students.

Clever GeoGebra files allow you to turn the lights on for students. Hence ... many more AHA moments for students.

You have a unique way of presenting maths. Now you create files as an extension of the way you teach.

## An Extensive PD Program

This course is brilliant. It gave me everything I was hoping to gain. I really liked replicating the files as it made me see how easy little things were to implement. The strategies, honestly, are so in line with my own thinking of how education should be. GeoGebra is a software that instantaneously shows a student's understanding (or lack of) of the concept being working on. A great course! Ile Ilijevski, Northfleet School For Girls, UK.
