

# The Workshopping of Open-Ended Questions

Presenter & Facilitator: Richard Andrew

**Attn: Mathematics Leaders & Teachers**

## This could be you!

You are surprised at how immersed the students are in the mathematics - even the students who are typically disengaged.

So many AHA moments! Students eagerly explore the concepts you are targeting. You witness their understanding flourish.

This is a fun activity! The approach offers many levers to pull. Your influence over their understanding has increased significantly.

This has been the most positive practical PD in mathematics that I have undertaken. It has given me direction in my desire to change from the traditional teaching of mathematics and given me hope that there is a better way and I can develop an understanding of mathematics. Thanks, Richard. Paul Neilsen, Sophia College, QLD.

## A Short Online Course

Self-paced, facilitated, interactive, online PD.

\$200 pp for 2+ (\$240 for individuals)  
+GST in Australia.

Classroom implementations are a  
**KEY FEATURE** of the program.

Course Starts: Whenever you are ready!

Duration: 4 hrs over several weeks.

**Info:** <https://tinyurl.com/ws-cs-OEQs>

## An Ideal Departmental-wide Short Course

Ideal for department-wide change.  
Promotes rich pedagogical staffroom discussions.  
We support the HoD/Team Leader.  
Full facilitation of all Team members.

HoD/Team Leader helps influence/steer the PD.  
Plan and share strategy implementations.  
HoD able to prioritise specific implementations.  
Flexible everything!
